2016
CASES WORKBOOK

HPRC®

Our Brand

We're about happiness by cases. It means we're not just in the business of creating protective cases, even though that is what we do. Our everyday commitment is designed to make people happy. From an ever-growing collection of innovative products to our passionate team who makes it happen, it's all about happiness.

Our Products

We're always looking for what's next. We're constantly innovating our original designed form and function, proving a fresh approach to the art of cases. By incorporating different styles, top quality materials and eye-catching patterns into our design, we make more than a case. We make a statement.

Our History

HPRC cases were born in 2006 with one simple premise: we can design a better case. In almost 10 years HPRC has grown into a successful international business, teaming up with important companies and partners. Our products can be found in 76 countries and have garnered top awards and praise. As we grow, our entrepreneurial spirit continues to drive the HPRC culture. After all, it's what helped us build one of the world's best hard cases brand.

Ultralight.
Watertight.
Smart Cases.

HPRC cases can be used for all sorts of applications and different areas: photography, industrial, military, nautical, police and many others. HPRC provides total protection to the carried equipment against dust, water, impacts and corrosion for chemical agents.

Highlights
2016

HPRC4600W

The new **HPRC4600W** is the size that was missing. Ideally designed for professional drones, it is definitely going to be the right fit for many other applications. It features larger built-in wheels for easier and more convenient transport. You can also customize the wheels with your company's logo.
More info at page: 46

HPRC2710

The new **HPRC2710** is as long and wide as HPRC2700 but 50mm deeper to fit a wider range of gear. Plus, we have added a convenient side handle for easy carrying.
More info at page: 32

Special
soft cases

HPRC also produces different lines of soft cases and backpacks specifically designed to carry and protect the most popular drones of the market.

Committments

Our committment to you:

1.UNDERSTAND the problems of your market and your specific requirements. Through our expert knowledge of technological and economic trends we can offer an uncompromisingly individual approach to each customer.

2.FIND a transport solution tailored to your requirements. Our extensive cases range, our custom solutions that go far beyond our product offer, our team that assists you in selecting the case that is best suited to your own needs, are our core strengths.

3.LISTEN to and take account of your comments, through our network of experts and our frequent satisfaction surveys.

4.BE incessantly innovative and competitive in the professional cases market.

HPRC: innovation, technology and design. TTX01®

Most of hard watertight cases are made in standard pp: our r&d department has developed an enhanced compound, still based on pp, now balanced with additional high performance resins.
Ttx01® allows to produce cases which are lighter in weight and stronger in robustness.
The special mix we added makes the HPRC shell thinner and more elastic, increasing therefore the shockproof degree and the lightweight. On the top of that, maintaining pp characteristics, HPRC cases are acidproof, scratchproof, able to resist to extreme weather conditions and temperature changes (all products are tested from - 40° c up to 80°c).

LifeTime LTW Warranty HPRC

HPRC life time warranty: HPRC products have been built to rigorous standards of quality and are guaranteed against all defects in materials and workmanship for the whole life of the case.

AIR EXCHANGE®

Airex is the new automatic purge valve that is auto press release adjusted to changing environments automatically.

The attention and respect toward the environment and the commitment to an eco-sustainable future are important values for HPRC

HPRC we case in **green.**

Our commitment starts from the design phase of the product, and involves all the production stages including the management of the impact of the product's end of life. All shells and components of HPRC cases are 100% recyclable: the production and transformation discards are infact reintegrated in the production cycle. The high resistance of the patented material ttx01® allows to use the HPRC cases longer than any other case, reducing therefore the emissions of CO2 due to the production

and distribution. The constant quest for suppliers complying with iso 14000 or emas certification and which are geographically close to our company is a contribute to reduce the environmental impact and represents a challenge in a world where firms usually aim only for low price suppliers not considering their possibly higher environmental impact.
Moreover HPRC adopts renewable sources plants for energy production to cover the energetic needs.

Standard
cases

HPRC cases are available with a standard setup if you don't need any special customization regarding the shell or the interior foam. Here are the 4 possible standard configurations.

* EMPTY - USA: E	*** CUBED FOAM - USA: F**

* INTERIOR BAG - USA: IC	*** SOFT PADDED OPEN DECK + DIVIDERS - USA: DK**

*PANEL FRAME MOUNTING SYSTEM AVAILABLE

Oem
cases

We are cases producers,
if you do not find the right size or best liked design
we will make a customized case for you

1. Product inquiry >>>>> Mold + price offer

2. Contract signing >>>>> Design drawing

3. Client confirmation >>>>> Mold making

4. Sample checking >>>>> Production arrangement

Custom fit
cases

Customization concerns: color, printing, adhesive, foam inlay (die cut, water cut, milled, moulded), thermoformed inlay, lid panels and organizer, extra working on the cases shell (holes, external applications) keeping the water tightness.

HIGH VISIBILITY INLAYS
A special high visibility inlay can be designed in order to avoid forgetting equipment on the field after use.

CUSTOMIZED LAYOUT
We give customers different equipment layouts options in order to optimize space and handiness.

CUSTOMIZED COVERS

Customization also includes the possibility to design solutions in order to use the cover as a glove compartment. We can provide organizers, special tools addition, shell modifications and custom colors.

SHELL CUSTOMIZATION

HPRC customization service also provides shell customization, including holes for external connections.
HPRC panel frame accessory (HPRCPF) allows customers to install a control panel into the case, ensuring a perfect fit.

INJECTION INLAYS

The custom inlay made in expanded polypropylene of different densities guarantees a perfect protection and a professional look to the case. Our service includes the initial study of the mould and goes trough the prototype phase and final production.

MILLED FOAMS

The milling technology allows to get one piece inlays with many different depths.

WATER CUTTING TECHNOLOGY FOAMS

Expanded polietilene foams are available in various densities (Kg/m3), resistance to compression (kPal) and resistance to different temperatures ranges (°C). These foams, produced with water cutting technology, guarantee a good protection and allow a wide range of customizations.

MULTY LAYER

A multi layer case is a handy solution, especially when equipment is made of many small and different parts that must be stored and protected into one case only.

When innovation becomes a case

Main features:

- 4 built in wheels: roll the case along by simply pushing it while it's on the ground

- two side handles: push or pull the case as a trolley

- stackable exterior lid design: use the case as a cart by stacking more cases on top of each other

- two lateral handles: when you need to hold the case from both sides

- comfortable soft-grip handle

- braked wheels to prevent unexpected movement

open cases images reflect the different HPRC cases internal options
